

SR/CL: May Day, 2006; *Leitmotiv*: “*et curvat imperia*”

As previously communicated *via* [“the low-grade, small-bore decadence found chiefly among liberal Republicans and ritual killers”], there has been a **Third Level Penetration** by the cursed Revisionists (*videte*: St. Luke 9:62). The Little Orphan Children and The Midget Tag Team are unanimous in refusing to guarantee the structural integrity of the “levees” against a “Category 5” assault by the Pelagian devils. THE ORPHANAGE concurs with the cybernetic assessment. *Ergo*, “read” the May Day 2006 plaintext--including the itinerary for the Summer Tour in the Alternate Venue as per 5/1/89, **FOURTH LEVEL**, inclusive of the cyclotomic polynomials; set optical aperture at: St. Luke 8:36. The topological location of the 476<sup>th</sup> celebration of the *Confessio Augustana* is to be extrapolated by applying the *Möbius function vis-à-vis* the final *Contrapunctus* [*Die Kunst der Fuge*]. THE ORPHANAGE further directly instructs the (most current) Oath Giver to emulate somatically the already well-practiced procedure found (and verified empirically by both Winthrop and Thomas Bradwardine) in ISBN 1559390042 [1992], pp. 232-233; as to the source manuals from which you have practiced, *sub specie et via analogia*: ROMANS 10:02. **Failsafe**: Philippians 1:23; LUTHER, CALVIN, GUSTAVUS ADOLPHUS, CROMWELL}}+{u/h.
